Coordinate Graphing - Four Quadrants

A coordinate graph with x and y axes ranging from -17 to 17. The grid lines are spaced at 1-unit intervals. A green treasure chest is drawn on the grid. The chest has a large green body, a yellow handle, and a yellow lock. A white key is shown inside the chest. Several yellow coins are scattered around the chest. The coins are yellow with black outlines. The chest is located in the lower half of the graph, with its top edge around y = 10. The handle is on the left side, and the lock is on the right side. The key is located near the handle. The coins are located in the upper half of the graph, with some near the chest and others further away.

Math is fun! Graphing is fun!
