Coordinate Graphing - Four Quadrants

The image shows a coordinate graphing worksheet with a grid. The X-axis and Y-axis both range from -17 to 17. A clown is drawn emerging from a red box. The clown's head is in the upper quadrants, wearing a blue party hat with yellow stars. The box is red with yellow diamonds. A red lever is on the right, and a red octagon is nearby.

Math is fun! Graphing is fun!
